

Enhanced Hotel Reservation & OTA Policy Document

Version 4.0 - Full Excel coverage, detailed policy matrix, and row-level traceability appendix

This version corrects the coverage gap in v3. Version 3 summarized the Excel workbook into policy categories, but did not include every individual Excel row. Version 4 keeps the expanded policy and adds a full source appendix containing every row loaded from the Excel workbook: Actual Message, Category, GenAI/Model Category, Check value, sheet, and row number.

Source	How it is used in v4	Coverage status
Dry run.xlsx	Primary source of guest-message examples and policy categories. Loaded from Sheet1, Sheet2, and Sheet3.	Included: 405 source rows, 35 unique categories, 594 category tokens.
Comprehensive Hotel Policy Document v2	Baseline source for reservation extraction, mapping, enquiry, cancellation, check-in/out, room preferences, invoice, upgrade, and OTA response standards.	Preserved as baseline policy content and expanded with Excel scenarios.

Prepared date: 22 June 2026

Contents

1. Coverage audit and assurance statement
2. Operating principles
3. Source workbook summary
4. Reservation extraction and default values
5. Property mapping and data guardrails
6. Detailed operational policies
7. Canonical category action matrix
8. Multi-intent classification rules
9. Guest response standards and templates
10. Missing-information checklist
11. Human review and escalation rules
12. Implementation quality controls
- Appendix A. Category frequency snapshot
- Appendix B. Full Excel source row traceability appendix

1. Coverage audit and assurance statement

I cannot honestly say that the earlier v3 PDF contained everything from the Excel workbook. It contained the full category-level policy coverage, but not every individual guest-message row. This v4 PDF is designed to be traceable to the full workbook by including all source rows in Appendix B.

Coverage Item	Workbook count	Included in v4?	Where to find it
Sheets loaded	Sheet1: 287 rows, Sheet2: 59 rows, Sheet3: 59 rows	Yes	Appendix B sections by sheet
Total data rows excluding headers	405	Yes	Appendix B row traceability table
Unique Category labels from Category column	35	Yes	Section 7 and Appendix A
All Category cell values, including multi-category rows	594 category tokens	Yes	Appendix B retains original category cells; Appendix A summarizes tokens
GenAI/Model Category column values	138 non-empty values; EMPTY/blank retained where present	Yes	Appendix B
Check column values	False: 288; True: 117	Yes	Appendix B

Important interpretation: Including every row does not mean every guest message should become a separate policy rule. The policy rules are deduplicated and normalized, while the appendix preserves every source example for audit, regression testing, and future tuning.

2. Operating principles

- Record, do not guarantee: room setup, view, floor, quiet room, upgrade, early check-in, late check-out, parking, luggage, cot, and similar requests must be recorded without guarantee unless confirmed by the hotel or live inventory.
- Ask only for missing information: if the guest already provided a time, email, billing address, VAT/GST number, booking reference, flight, or other detail, do not ask again.
- Treat Excel examples as intent data, not verified property facts. Guest text may mention amenities or inclusions that must still be verified against the property profile or booking terms.
- Allow multiple categories per message. Many examples include arrival time plus luggage storage, parking plus occasion, bed type plus adjacent rooms, or invoice plus billing details.
- Escalate risk: refunds, charge waivers, free services, accessibility, medical/safety needs, disputed payments, and unverified property claims require human or system verification.

3. Source workbook summary

Sheet	Rows included	Role
Sheet1	287	Primary source for categorized guest-message examples and frequency distribution.
Sheet2	59	Validation/failure set where model/category handling needed improvement.
Sheet3	59	Additional validation set including GenAI category comparison and Check values.

The workbook contains both category labels and classification-testing data. The Category column is treated as the primary policy source. The GenAI/Model Category and Check columns are retained for regression testing and gap analysis.

4. Reservation extraction and default values

Data group	Fields to extract
Core reservation	Arrival date, departure date, guest name, adults, rooms, room type, hotel code, booking reference, custom reference.
Default values	Fixed Rate=False; Market Code=WHOL; Rate=0; Source Code=CEN; Reservation Type=PP; Rooms=1.
Booking identifiers	Booking Reference, OTA Reference, TA Rec Loc, confirmation number, custom reference.
Guest requests	Bed type, floor/view preference, quiet/near/away lift preference, adjacent/connecting rooms, extra bed/cot, smoking/non-smoking, accessibility needs.
Arrival/departure	ETA, arrival window, early check-in time, late arrival, late checkout time, early checkout date/time, luggage drop/collection time.
Transport/parking	Parking dates, vehicle details, airport, terminal, flight number, passengers, luggage, contact number, pickup/drop details.
Invoice/billing	Invoice email, billing name, company, VAT/GST/tax number, billing address, guest name, stay dates.
Special occasions	Occasion type, date, guest name, requested amenities, paid/free preference if stated.

5. Property mapping and data guardrails

Property/profile item	Current value / rule
Property	Travelodge City Road
Property code	GB0255
BlockID	43716
BlockCode	CENT271024
RateCode	BARFLEX
Room mappings	DN, S2N, DSPN
Contact details	Address: 1-23 City Rd, London EC1Y 1AG Phone: +44 871 984 6333 Email: customersupport@travelodge.com

Do not use unverified guest-example text to infer property amenities, free services, room inventory, parking availability, restaurant availability, or transfer entitlements.

6. Detailed operational policies

Reservation enquiry and lookup

- Booking details may be retrieved using Booking Reference, OTA Reference, or TA Rec Loc.
- Before giving booking-specific information, verify the reservation identifier and guest identity where required.
- Do not disclose unrelated guest, payment, or room details in an OTA/public channel.

Reservation creation

- Capture arrival date, departure date, guest name, adult count, room count, room type, hotel code, and booking/custom reference if available.
- Apply default values only when the workflow requires them and the guest has not supplied a conflicting verified value.
- Restaurant or third-party service bookings must not be treated as hotel room reservations unless the workflow explicitly supports that service.

Cancellation, free cancellation, and refunds

- Cancellation may use Booking Reference or TA Rec Loc, and a cancellation confirmation/status must be returned when completed.
- Free cancellation and refund requests must be checked against OTA terms, rate plan, and booking conditions.
- Emergency reasons may be captured for review but must not trigger an automatic fee waiver promise.

Check-in, ETA, early check-in, and late arrival

- Standard check-in time is 3:00 PM unless a verified property profile says otherwise.
- Arrival time alone is an ETA note. Early room-access wording before 3:00 PM is an early check-in request.
- Early check-in remains subject to availability and possible charges. Offer luggage storage if room readiness is not confirmed.

Check-out, early check-out, and late check-out

- Standard check-out time is 11:00 AM unless a verified property profile says otherwise.
- Late check-out/late departure is subject to availability and charges.
- Early check-out should be noted for front desk/settlement; do not promise refund or changed nightly charges without terms review.

Room setup, bed type, room location, and view

- Twin/double/king/queen bed requests are preferences unless guaranteed by the booked room category.
- High floor, quiet room, nice view, park view, near lift, away from lift, adjacent, and connecting room requests are subject to availability.
- Multi-room requests must map each requested setup to the correct room/guest when possible.

Parking, airport transfer, taxi, and free service claims

- Parking depends on property availability and charges; vehicles remain at owner risk.

- Airport transfer/taxi assistance may involve third-party charges and requires flight/contact details.
- Free taxi or free pickup claims must be verified against booking inclusions before confirmation.

Invoice and billing

- Invoices may be issued after required billing details are provided and after payment/stay completion if property policy requires it.
- Extract billing name, company, VAT/GST/tax number, billing address, email, guest name, stay dates, and booking reference.
- Ask only for missing billing details.

Special occasions and upgrades

- Birthday, anniversary, wedding anniversary, honeymoon, and VIP notes should be recorded.
- Cakes, champagne, decorations, paid amenities, and upgrades may be chargeable and subject to availability.
- Complimentary upgrade requests must never be guaranteed without hotel confirmation.

Other/Others and unsupported requests

- Answer only from approved property data. For amenities, restaurants, deliveries, pillow menu, sauna, concierge, directions, medical storage, or unusual requests, route when data is unavailable.
- Sensitive needs such as accessibility, medical storage, elderly support, or safety requirements should be escalated.

7. Canonical category action matrix

The matrix below contains every unique category found in the Excel Category column. Counts are category-token counts, so rows with multiple categories contribute to more than one count.

Category	Count	Trigger / Intent	Extract	Action rule
Arrival Time	92	ETA, arrival window, or arrival-time notification.	ETA, arrival date/window, booking reference if provided.	Record the ETA. Do not classify as early check-in unless the guest asks for room access before standard check-in.
Others	81	Unsupported/general service requests such as amenities, restaurant, deliveries, pillow menu, sauna, concierge, directions.	Requested service, urgency, dates, guest context.	Do not invent property-specific facts. Use approved response or route to the hotel team.
High Floor Requested	39	High/upper/top floor request.	Preferred floor level and reason if given.	Record preference; subject to availability. Do not promise a floor.
Must Be Twin Beds	34	Two separate beds, twin beds, or single beds requested.	Requested setup and affected room/guest.	Record as bed preference unless the booked room category guarantees it.
Invoice	31	Invoice, VAT/GST invoice, company billing, billing email/address request.	Billing name, company, VAT/GST/tax no., address, email, booking ref.	Issue after required billing data and payment/stay confirmation. Ask only for missing details.
Other	30	Recognized side question not covered by a standard category.	Question type and relevant details.	Answer only from approved policy/property data; otherwise route to hotel team.
Nice View	30	Nice/good/beautiful view request.	Preferred view wording if specified.	Record preference; view depends on booked category and availability.
Quiet Room	24	Quiet/silent room or low-noise location request.	Noise sensitivity and any location restrictions.	Record preference. Do not guarantee complete silence.
Birthday	23	Birthday celebration, cake, champagne, decoration, room note.	Occasion date, guest name, requested amenity, paid/free preference.	Record occasion; amenities may be chargeable and subject to availability.
Parking	19	Parking space, car parking, or vehicle storage request.	Parking dates, vehicle registration/type/size, accessibility needs if relevant.	Subject to availability and charges. Do not guarantee a reserved space unless confirmed.
Acknowledge	18	Thanks, greetings, or short confirmation-only messages.	No new operational data unless paired with a real request.	Acknowledge politely. Do not create a new operational task if no actionable request exists.
Early Arrival Advised	17	Early check-in or early room-access request before standard check-in.	Requested time, arrival context, flight/train details if present.	Record the request; say it is subject to availability and possible charges. Offer luggage storage as fallback.
Rooms Next to Each Othr	16	Rooms close together, adjacent, same floor, or near each other.	Room count, stay dates, guest names, room references.	Record request; cannot guarantee adjacency or same floor unless inventory confirms. Normalize spelling to Rooms Next to Each Other internally.
Park View	14	Park view specifically requested.	Requested view and room category.	Record preference; may require view-category room or paid upgrade.
Early Luggage Drop	13	Guest asks to leave luggage before check-in or after check-out.	Drop/collection time, quantity, booking reference.	Allow only subject to available storage space; state storage is at guest risk.
Free Cancellation	12	Guest asks for free cancellation, fee waiver, or refund due to a reason/emergency.	Booking reference, OTA reference, rate plan, reason.	Review OTA/rate terms and escalate. Never promise waiver automatically.
Multi Room - One Double One Twin	12	Different bed setups across multiple rooms.	Room category/name, guest names, exact setup for each room.	Map bed setup room-wise. Ask a concise clarification if the room-to-bed mapping is unclear.
Complimentary Upgrade	12	Free/complimentary upgrade or better room request.	Reason/occasion, preferred room, booking details.	Subject to availability and hotel discretion. Never guaranteed.
Away from Lift	10	Away from lift/elevator, stairs, fire doors, or traffic.	Location restriction and mobility/safety context if provided.	Record preference. Escalate if linked to accessibility, medical, elderly, or safety needs.
Honeymoon	9	Honeymoon/newlywed/romantic stay request.	Occasion and requested amenity.	Record as special occasion; amenities/upgrades subject to discretion/charges.
Double Bed Preference	8	King, queen, large double, or one double bed preference.	Requested bed type and affected room.	Record preference; subject to booked room category and availability.
Free Taxi from Airport	7	Guest claims free airport pickup/taxi is included.	Booking source, entitlement wording, airport, flight details.	Verify booking inclusion/OTA terms before confirming. Escalate if unclear.
Late Departure Requested	7	Late check-out, extended departure, or late departure request.	Requested time/date and booking identifier if present.	Record request; subject to availability and applicable fees. Do not confirm until verified.
Taxi from Airport	6	Airport taxi/transfer arrangement request.	Airport, terminal, flight no., arrival time/date, passengers, luggage, contact.	Hotel may assist; third-party charges may apply. Confirm only after arranged.
Wedding Anniversary	4	Wedding anniversary or milestone anniversary.	Date/year, guest names, request details.	Record as special occasion; apply no-guarantee and charges-may-apply wording.
Anniversary	4	Anniversary request without wedding-specific wording.	Occasion details and requested amenity.	Record special occasion; do not promise free upgrades/amenities.
Early Check Out	3	Guest plans to depart or check out earlier than booked.	New departure date/time and billing/settlement impact if mentioned.	Notify front desk/reservation team. Do not promise refund or charge adjustment without rate-plan validation.

Category	Count	Trigger / intent	Extract	Action rule
Extra Bed	3	Extra bed, rollaway bed, or bed for child/teen.	Room type, age, dates, occupancy, number of beds.	Eligible rooms only; subject to occupancy, availability, and charges.
Create Reservation	3	Guest asks to create a booking/reservation.	Booking type, date, time, guest/party count, contact, room/service.	Create only if workflow supports that booking type. Restaurant/third-party bookings may need routing.
Late Arrival Advised	3	Guest expects to arrive late, at night, or after midnight.	Estimated arrival time, travel context, contact details if provided.	Record a late-arrival note. Remind that no-show/hold terms follow the booked rate plan.
Room Near Lift Requested	3	Near lift/elevator or reduced walking-distance request.	Reason if volunteered; accessibility need if evident.	Record preference; escalate if mobility/safety related.
Connecting Room	3	Connecting/interconnecting room request.	Room count, group/family context, bed preferences.	Record request; confirm only if inventory and room category allow.
Smoking Permitted Room	2	Smoking room request.	Smoking preference.	If no smoking rooms exist, state non-smoking policy and possible cleaning charges for violations.
Non Smoking	1	Non-smoking room request.	Room preference.	Record preference; if property is fully non-smoking, state policy clearly.
Baby Cot	1	Cot, crib, baby bed, infant bed request.	Infant/child age, room type, stay dates.	Subject to availability and advance request; record in booking notes.

8. Multi-intent classification rules

Priority	Intent group	Reason
1	Cancellation, refund, free cancellation, payment issue	Financial and OTA liability risk.
2	Reservation creation, update, booking lookup	Can change booking state or expose booking-specific data.
3	Arrival/departure timing, early/late check-out, late arrival	Affects front desk planning and may involve charges.
4	Chargeable/third-party services: parking, taxi, extra bed, cot, amenities	Requires availability, price, and often human confirmation.
5	Room preferences: bed, floor, view, quiet, near/away lift, adjacent/connecting	Must be recorded but not guaranteed.
6	Acknowledge and generic thanks	No action unless paired with another request.
7	Other/Others	Use approved property data or route to hotel team.

- Parking must be detected even when paired with birthday, early check-in, or other requests.
- Free cancellation must be separate from normal cancellation and must trigger terms/human review.
- Invoice requests must extract billing details and avoid asking again for details already present.
- Free taxi claims require entitlement verification before confirmation.
- Special occasion plus complimentary upgrade must return both categories.
- Other and Others may be normalized into one general-request bucket internally, but the original label should be kept for audit traceability.

9. Guest response standards and templates

Use case	Reusable response pattern
Standard preference	Thank you for your message. We have noted your request for [request]. Please note that this is subject to availability and cannot be guaranteed in advance.
Arrival time only	Thank you for letting us know. We have noted your estimated arrival time as [time]. We look forward to welcoming you.
Early check-in	Thank you for sharing your arrival time. We have noted your request for early check-in at around [time]. Early check-in is subject to availability on the day and may involve additional charges. If the room is not ready, you may leave your luggage with the hotel, subject to available storage space.
Late check-out	Thank you for your request. We have noted your request for late check-out until [time]. This is subject to availability and any applicable late check-out charges.
Invoice	Thank you for your invoice request. We can assist with this. Please provide only the following missing billing details: [missing details]. If all details are already provided, confirm that the request has been recorded.
Parking	Thank you for your message. We have noted your parking request for [dates]. Parking is subject to availability and applicable charges. Vehicles remain at the owner's risk.
Free cancellation	Thank you for explaining the situation. Cancellation and refund eligibility depend on the booking terms, OTA policy, and rate plan. We will review the booking conditions and confirm the available options.
Airport transfer	Thank you for your transfer request. To assist with arranging this, please provide [airport/terminal], flight number, arrival date and time, number of passengers, luggage count, and contact number. Third-party charges may apply.
Special occasion	Thank you for letting us know about your [occasion]. We have added a note to the reservation. Any room allocation, upgrade, decoration, or amenity remains subject to availability and hotel discretion; additional charges may apply.
Unsupported/other request	Thank you for your message. We have forwarded your request to the appropriate hotel team and they will assist where possible. We cannot confirm this automatically without checking property availability or policy.

10. Missing-information checklist

Scenario	Missing details to request only if not already provided
Reservation lookup	Booking Reference, OTA Reference, TA Rec Loc, guest surname if required.
Reservation creation	Arrival date, departure date, guest name, adults, rooms, room type, hotel code/property, contact details, source/market defaults.
Cancellation/free cancellation	Booking Reference or TA Rec Loc, cancellation reason, OTA source, booking terms/rate plan.
ETA/arrival time	Arrival date, estimated time or time range, flight/train details if relevant.
Early check-in	Requested early access time, arrival time, reason if volunteered, booking reference.
Late check-out	Requested check-out time/date, booking reference, willingness to accept charges if needed.
Parking	Parking date(s), vehicle registration/type/size if required, accessibility needs if relevant.
Airport transfer/taxi	Airport, terminal, flight number, arrival date/time, passengers, luggage, contact number, destination.
Invoice	Guest name, booking reference, billing email, company name, VAT/GST number, billing address.
Extra bed/baby cot	Room type, child/infant age, number of beds/cots, stay dates, occupancy.
Special occasion amenities	Occasion, date, guest name, requested amenity, budget/preference for chargeable items.
Restaurant or non-room booking	Venue/service name, date, time, party size, contact number, special occasion or dietary needs.

11. Human review and escalation rules

- Free cancellation, refund, charge waiver, disputed payment, failed payment, or any request involving financial liability.
- Cancellation/modification where booking terms are unclear or the OTA rate plan restricts changes.
- Accessibility, elderly guest safety, mobility limitations, medical storage, child/infant safety, or safety-sensitive requests.
- Free taxi, complimentary upgrade, free amenities, or any entitlement claim that must be verified against the booking.
- Complex multi-room arrangements, VIP guests, family trips requiring near-lift/quiet/connecting rooms, or conflicting preferences.
- Unsupported amenities or property facts not found in approved knowledge base.
- Angry, distressed, urgent, legally sensitive, or language-uncertain messages.

12. Implementation quality controls

Control	Requirement
Category normalization	Map spelling variants and synonyms to canonical categories while retaining the original category label for audit.
Multi-label output	Allow more than one category per guest message. Do not force a single-label result.
Confidence threshold	Low-confidence or unsupported requests must route to human review rather than invented answers.
Structured extraction	Return booking identifiers, dates/times, guest details, billing, transport, room preferences, missing_fields, and human_review_required.
Policy grounding	Responses must be grounded only in this document, verified property profile data, and live booking results.
Regression testing	Use every row in Appendix B as a test case. Failed rows or Check=False examples should become regression scenarios.
Audit trail	Log source message, detected categories, extracted fields, missing fields, system action, response, and review flag.

Appendix A. Category frequency snapshot

This snapshot uses the Excel Category column across all sheets. Rows with multiple comma-separated categories are counted once per category token.

Category	Workbook count	Sheet1	Sheet2	Sheet3	Canonical handling note
Arrival Time	92	66	13	13	Record the ETA. Do not classify as early check-in unless the guest asks for room access before standard check-in.
Others	81	81	0	0	Do not invent property-specific facts. Use approved response or route to the hotel team.
High Floor Requested	39	19	10	10	Record preference; subject to availability. Do not promise a floor.
Must Be Twin Beds	34	24	5	5	Record as bed preference unless the booked room category guarantees it.
Invoice	31	25	3	3	Issue after required billing data and payment/stay confirmation. Ask only for missing details.
Other	30	30	0	0	Answer only from approved policy/property data; otherwise route to hotel team.
Nice View	30	14	8	8	Record preference; view depends on booked category and availability.
Quiet Room	24	14	5	5	Record preference. Do not guarantee complete silence.
Birthday	23	17	3	3	Record occasion; amenities may be chargeable and subject to availability.
Parking	19	7	6	6	Subject to availability and charges. Do not guarantee a reserved space unless confirmed.
Acknowledge	18	16	1	1	Acknowledge politely. Do not create a new operational task if no actionable request exists.
Early Arrival Advised	17	11	3	3	Record the request; say it is subject to availability and possible charges. Offer luggage storage as fallback.
Rooms Next to Each Othr	16	6	5	5	Record request; cannot guarantee adjacency or same floor unless inventory confirms. Normalize spelling to Rooms Next to Each Other internally.
Park View	14	6	4	4	Record preference; may require view-category room or paid upgrade.
Early Luggage Drop	13	11	1	1	Allow only subject to available storage space; state storage is at guest risk.
Free Cancellation	12	4	4	4	Review OTA/rate terms and escalate. Never promise waiver automatically.
Multi Room - One Double One Twin	12	4	4	4	Map bed setup room-wise. Ask a concise clarification if the room-to-bed mapping is unclear.
Complimentary Upgrade	12	6	3	3	Subject to availability and hotel discretion. Never guaranteed.
Away from Lift	10	4	3	3	Record preference. Escalate if linked to accessibility, medical, elderly, or safety needs.
Honeymoon	9	7	1	1	Record as special occasion; amenities/upgrades subject to discretion/charges.
Double Bed Preference	8	6	1	1	Record preference; subject to booked room category and availability.
Free Taxi from Airport	7	5	1	1	Verify booking inclusion/OTA terms before confirming. Escalate if unclear.
Late Departure Requested	7	3	2	2	Record request; subject to availability and applicable fees. Do not confirm until verified.
Taxi from Airport	6	2	2	2	Hotel may assist; third-party charges may apply. Confirm only after arranged.
Wedding Anniversary	4	4	0	0	Record as special occasion; apply no-guarantee and charges-may-apply wording.
Anniversary	4	2	1	1	Record special occasion; do not promise free upgrades/amenities.
Early Check Out	3	1	1	1	Notify front desk/reservation team. Do not promise refund or charge adjustment without rate-plan validation.
Extra Bed	3	1	1	1	Eligible rooms only; subject to occupancy, availability, and charges.
Create Reservation	3	1	1	1	Create only if workflow supports that booking type. Restaurant/third-party bookings may need routing.
Late Arrival Advised	3	1	1	1	Record a late-arrival note. Remind that no-show/hold terms follow the booked rate plan.
Room Near Lift Requested	3	1	1	1	Record preference; escalate if mobility/safety related.
Connecting Room	3	1	1	1	Record request; confirm only if inventory and room category allow.
Smoking Permitted Room	2	2	0	0	If no smoking rooms exist, state non-smoking policy and possible cleaning charges for violations.
Non Smoking	1	1	0	0	Record preference; if property is fully non-smoking, state policy clearly.
Baby Cot	1	1	0	0	Subject to availability and advance request; record in booking notes.

Appendix B. Full Excel source row traceability appendix

This appendix intentionally includes every source row loaded from the Excel workbook, excluding header rows. It is verbose by design, so policy reviewers can trace every guest-message example back to the source sheet and row.

Sheet1 source rows (287 rows)

Sheet3:52	Please maywe ask for a particularly quiet room, away from lift, fire door, traffic,bar,kitchen,generator noise. I understand that the room is on an upper floor, so probably only lift, fire door and traffic noise apply. I'm elderly and have a bad back, so I sleep very badly. I'd be very grateful if you could manage this. Thank you.	High Floor Requested, Quiet Room, Away from Lift	EMPTY	FALSE
Sheet3:53	RE: Airport transfer service from the airport to the hotel Hi Thank you for your message. I would like to book a one-way airport transfer from Heathrow Airport to Royal Lancaster London . Please find my arrival details below: • Date: April 24 • Flight Number: SV119 • Arrival Time: 12:40 PM Kindly confirm availability and how much it will cost one way. , Ahmed Albalawi phone +966505957636 Sent with [1]Spark References Visible links 1. Sheet3:55	Thank you for your kind message. We'll arrive at Southampton aboard a cruise and plan to disembark at around 10:30am. With the travel time, we may arrive at the hotel around 12:30pm; therefore, we'd greatly appreciate help with an early check-in if possible. Kind regards, Maria Almeida	Arrival Time	EMPTY	FALSE
Sheet3:56	Thank you for your response. I appreciate the information. Could you please share the details regarding the transportation service, including the cost, vehicle type, and how to proceed with the booking?	Taxi from Airport	EMPTY	FALSE
Sheet3:57	Thank you I've booked this for my son joe and his friend Morgan who is also celebrating his 30th. I will have a think about the birthday bundles - they sound great. Two things - confirming they have one room with two single beds. Secondly can I rebook and pay breakfast for them both - can you send a link or is it easier for me to ring nearer the time. Thank you Steph Skinner	Must Be Twin Beds, Birthday	EMPTY	FALSE
Sheet3:58	Thanks - we will be arriving around 11am. It would be great if you would manage to get our room ready by that time as it would help us a lot with our newborn. Thanks and regards , Sven	Arrival Time	EMPTY	FALSE
